Information Disclosure Statement

The information disclosure statement filed 12/17/2008 fails to comply with 37 CFR 1.98(a)(2), which requires a legible copy of each cited foreign patent document; each non-patent literature publication or that portion which caused it to be listed; and all other information or that portion which caused it to be listed. It has been placed in the application file, but the information referred to therein has not been considered. Although the cited document (11/404,961) has not been considered, the examiner has cited the corresponding patent application publication (2006/0188861) in PTO-892. The examiner has additionally considered this co-pending application for double-patenting, but does not believe that any double-patenting rejections are applicable to the current claims.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee. Authorization for this examiner's amendment was given in a telephone interview with Patrick Jewik on December 17, 2008.

The application has been amended as follows:

In the Claims:

CANCEL claims 9-17

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: Patentability seen in, although not limited to independent claims 1 and 5, the combination of elements specifically claimed including a handheld device having an educational program with a directional control pad and a stylus; a

light in the stylus, wherein the light in the stylus is illuminated to indicate that the stylus is available for use during operation of the educational program. The closest prior art of record (Ng US 6,042,478) does not teach or fairly suggest the claimed features in combination. Ng discloses a display screen 52 that displays icons 72 and 73, wherein illumination of these icons implicitly would indicate to a user that stylus 60 is available for use to select icons on the display. However, Ng fails to disclose a light *in the stylus* that illuminates to indicate that the stylus is available for use during operation of the educational program.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

- Corder (US 5,692,906) - discloses an educational system for remediation in communication skills comprising multiple input devices.
